DEPARTMENT OF CORPORATIONS AND TAXATION,
STATE HOUSE, BOSTON, March 1, 1949.

As Commissioner of Corporations and Taxation, I submit herewith the Fortieth Annual Report on the Statistics of Municipal Finances of the cities and towns of the Commonwealth for the financial year 1945, including also tables showing the net funded debt of all cities and towns on January 1, 1948.

This report was prepared under the direction of Mr. Francis X. Lang, Director of Accounts, and follows the form established in previous years, presenting data relative to the finances of the municipalities of the Commonwealth, together with tabulations compiled from the returns made by the several city and town officials.

HENRY F. LONG,
Commissioner of Corporations and Taxation.

REPORT ON THE STATISTICS OF MUNICIPAL FINANCES—1945

HON. HENRY F. LONG, *Commissioner of Corporations and Taxation,
State House, Boston.*

SIR:— I submit herewith the Fortieth Annual Report on the Statistics of Municipal Finances for the year ending December 31, 1945.

This report contains the usual tables giving a classified account of all revenue and non-revenue receipts of all cities and towns, and all payments for maintenance and operation, outlays for capital improvements, interest and debt charges, and agency, trust and investment payments, together with cash balances at the beginning and end of the year 1945. There are also tables showing outstanding debt at the close of the year and all debt transactions during the year.

The information in this report is gathered from the classified accounts of receipts and payments returned by the accounting officers of cities and towns, on schedules furnished by the Director of Accounts in accordance with Section 43 of Chapter 44 of the General Laws, which are carefully edited in the office by comparison with printed town reports and the reports of audits made by the Division of Accounts.

In addition to the tables covering the year 1945, the analysis section of the report includes a table giving a comparative statement of valuation, revenue for current charges, and current charges against revenue, for the years 1941 and 1945; a table giving a comparison of aggregate municipal indebtedness for 1910, 1943, 1944 and 1945; a table giving aggregate municipal indebtedness, divided into general and public service enterprise debt and the ratio of debt to valuation for each year from 1910 to 1945 inclusive; and a table giving the yearly increase or decrease of assessed valuation, and net funded or fixed debt, and the percentages of increase or decrease from 1910 to 1945.

On pages xxiii to xxvii we present analysis tables showing the total revenue for current charges, the current charges against revenue, and the excess or deficiency of revenue for each of the years 1941 to 1945 for all the cities and for towns over 5,000 in population. These tables show that in 1945, all the cities with the exception of Somerville, Brockton, and Revere showed an excess of revenue above the current charges against revenue, although in several other cities, the excess was very slight, and in most of the cities the excess was somewhat smaller than in the previous year.

In the year 1941, twenty-eight cities showed an excess of revenue; in 1942, thirty-five cities; in 1943, thirty-seven cities; and in 1944, thirty-eight cities. The record of the cities for the five-year period is very good. For the towns over 5,000 in population, the table shows that every town has shown an excess of revenue in each of the five years.

On pages xxviii to xxx are tables showing the distribution of charges against revenue into maintenance, interest, and debt requirements for the year 1945 for the cities and the towns over 5,000 in population, with the percentage expended for each. These tables are often called the pay-as-you-go tables and reflect the extent to which cities and towns may be succeeding in efforts to reduce the incurrence of debt. In several of the cities the amount of current charges for interest and debt was less than five per cent of the total, and in thirty-two of the towns over 5,000 in population, the percentage for interest and debt was less than three per cent. In North Attleborough and Foxborough there were no charges for interest and debt.

In addition to the statistics covering the year 1945, we present on pages xxxvii to xliii tables showing the amount of net funded debt and tax title loans on January 1, 1948 of all cities and towns. The net funded debt on January 1, 1947 was shown in the report covering the statistics for the year 1944.

DEBT.

On January 1, 1948, the net funded debt, exclusive of tax title loans, of all cities and towns, was \$186,884,448. Tax title loans amounted to \$48,531. The net funded debt on January 1, 1947 was \$170,103,891. There was thus an increase in the net funded

debt during the year 1947 of \$16,780,557. Of the total amount of \$186,884,448, outstanding on January 1, 1948, \$75,634,094 represented debt for public service enterprises, consisting of municipal light plants, water departments, Rapid Transit loans, Hyde Park Street Railway loans and Traffic Tunnel loans in the city of Boston; and airport loans under Section 8 of Chapter 44, General Laws, in Fitchburg; and \$111,250,354 represented debt for general purposes, such as highways, sewers, municipal buildings, land for parks and playgrounds, departmental equipment, Municipal Relief loans, and other purposes for which cities and towns have borrowed under the provisions of general laws and special acts of the legislature.

The amount of net funded debt on January 1 of each year beginning with 1932, to January 1, 1948 is shown in the following table, together with the increase or decrease from the amount on January 1 of the preceding year.

1947	170,103,891	881,045	-
1948	186,884,448	16,780,557	-

The amount on January 1, 1932 showed that there had been an increase of \$12,758,868 of debt incurred during 1931. Since January 1, 1932, the amount outstanding each year at the beginning of the year decreased each year until the year 1938, when an increase of \$11,479,973 was reflected in the amount outstanding January 1, 1939. Since January 1, 1939, the amounts again decreased each year until the year 1946 when an increase of \$881,045 was reflected in the amount shown January 1, 1947. An increase of \$16,780,557 during the year 1947 is reflected in the amount outstanding January 1, 1948 of \$186,884,448.

During the years since 1941, there have been difficulties in obtaining replacements of equipment, and restrictions on construction work. Now that those restrictions have been somewhat modified, it is to be expected that there will be more borrowing for construction purposes. The total reduction in net funded debt from January 1, 1932 to January 1, 1948 as shown in the table was \$129,600,151 or 40.9 per cent.

During the years since 1933, Municipal Relief loans have been issued in each year. The aggregate of loans issued for this purpose from 1933 to 1947 inclusive is \$119,250,523.50. These loans have been issued with the approval of the Emergency Finance Board, established by Chapter 49 of the Acts of 1933 and continued by subsequent acts. Municipal Relief loans have been issued in each year for the purposes set forth in the various acts authorizing them, including the various classifications of public welfare, veterans' benefits, Federal unemployment relief projects, and the distribution of surplus commodities in cooperation with the Federal government. The amount of Municipal Relief loans outstanding January 1, 1948 was \$19,589,200.

For purposes of record the amount of Municipal Relief loans issued in each year from 1933 to 1947 inclusive is shown in the following table:

TAX TITLE LOANS.

Since 1933 under authority granted by Chapter 49 of the Acts of 1933, with the approval of the Emergency Finance Board, established by that act, loans have been issued by the Commonwealth to cities and towns, based on the amount of tax titles held by them. These loans were issued for one year, but might be renewed with the permission of the board. Tax title loans were in effect temporary loans, but since Chapter 49 of the Acts of 1933 provided that any amounts not paid to the State Treasurer from tax title redemptions might be assessed against the municipality in the same manner as state taxes, they were considered a form of general debt, but have been kept in a separate classification. No new loans were issued under this heading in 1947. Tax title redemptions paid to the State in 1947 amounted to \$173,763.82. The amount of tax title loans outstanding on January 1, 1948 was \$48,531.19.

STATISTICS FOR THE YEAR 1945.

The main body of this report includes tables showing the revenue and non-revenue receipts and the total expenditures in the year 1945 for all the cities and towns in Massachusetts, arranged in order of population as established by the State census of 1945, also tables showing total debt outstanding at the close of the year, net funded debt, arranged to show the relation of indebtedness to valuation, all debt transactions for the year, and cash balances, sub-divided to show the cash of trust and investment funds separated from general cash. (See Plan of the Report on page xx.)

The terms "revenue" and "non-revenue" are used in the sense defined in Chapter 44 of the General Laws as amended by Chapter 358 of the Acts of 1946. "Revenue" means receipts from (1) the exercise of governmental power of taxation and police control; (2) donations, gifts, grants and subvention for governmental use; (3) performing services for compensation and from the operation and management of productive enterprises, investments, and properties of government. "Non-revenue" receipts consist of receipts from the sale or disposal of capital assets, from loans, refunds, transfers between departments and funds, and various temporary transactions.

Revenue for current charges as shown in the following analysis tables consists of all revenue receipts as shown in Table I of Part I, Part II, and Part III of the report, with the exception of grants and gifts for outlays, special assessments to meet outlays, and interest on sinking funds, with the addition of receipts from premiums on loans, which are actually non-revenue receipts, but which under Massachusetts law must be used toward payment of charges for the issuing of notes and bonds, and for the payment of the first instalment of debt due on the loan from which the premium was received. In cases where premiums are to be paid to sinking funds under the provisions of special legislative acts, they are treated as non-revenue receipts.

Current charges against revenue include the costs ordinarily chargeable to maintenance and operation of government, the interest on all debts of the municipalities, and the annual charges for payment of debt and contributions to sinking funds, except when such debt charges have been provided from non-revenue sources.

The term "outlays" represents expenditures for purchases of land and construction of permanent improvements, together with purchases of additional equipment which may be expected to last over a period of years, regardless of whether the appropriation was made from loans, grants or taxation.

Tables showing revenue for current charges, current charges against revenue, and expenditures for outlays for the years 1944 and 1945 are shown herewith.

ANALYSIS OF REVENUE.

Total revenue for current charges increased from \$355,932,522 in 1944 to \$366,913,606 in 1945, an increase of \$10,981,084 or 3.09 per cent. Of the total revenue, the so-called general revenue, consisting of taxes, licenses, fines and forfeits, grants and gifts for expenses, and all other general revenue, amounted to \$287,258,005 as compared with \$278,705,021 for 1944, an increase of \$8,552,984 or 3.07 per cent; and the commercial revenue, consisting of special assessments for expenses, privileges, departmental receipts, public service enterprises, cemeteries, interest, and premiums, amounted to \$79,655,601, compared with \$77,227,501 for 1944, an increase of \$2,428,100 or 3.14 per cent.

Total receipts from taxes in 1945 were \$247,353,110. These consisted of \$20,660,729 corporation taxes from the State, and \$226,692,381 property, poll and income taxes as shown in Table I, of the report, for cities, towns over 5,000 population and towns under 5,000 population. The amount of income tax distributed by the State to cities and towns in 1945 was \$22,278,776 and the amount collected from property and poll taxes for municipal purposes was \$204,413,605. The corresponding figures for the year 1944 were \$21,872,174 from corporation tax, \$21,518,347 from income tax and \$195,990,063 from property and poll taxes. The total receipts from taxes applicable to municipal expenses showed therefore a decrease of \$1,211,445 in corporation taxes, an increase of \$760,429 in income taxes, and an increase of \$8,423,542 in property and poll taxes.

If it is desirable to ascertain the entire amount received from taxes by the cities and towns, the amount of the State tax and the amount of county tax for the various

counties, which are shown in Table I of this report as agency transactions of the cities and towns should be added to the amount shown as revenue from taxes in the various tables. The amount of the State Tax assessed by Chapter 568 of the Acts of 1943 for the six months' period commencing January first and ending June thirtieth in the year 1945 was \$6,800,000, and the amount of county taxes \$11,396,134.75, including \$18,700 for Nantucket County paid by the Town of Nantucket and \$3,361,852.86 for Suffolk County, paid by the City of Boston.

Grants and gifts for expenses in 1945 were \$32,833,326, compared with \$33,564,464 in 1944, a decrease of \$731,138. Grants and gifts consisted of \$19,455,945 from the Federal government; \$12,672,884 from the State; \$375,187 from the various counties as returns from dog licenses; and \$329,310 gifts from individuals and other sources.

------------------------	---------------------

Receipts classified as "All Other General Revenue" show a large increase in 1945 above the amount reported in the previous year, since this item includes sales of tax possessions taken into the general revenue account instead of the sale of real estate fund. Other items included in this account are relatively small amounts from conscience funds, forfeited tailings accounts, etc.

Revenue from privileges decreased from \$4,322,735 in 1944 to \$3,433,600 in 1945, a decrease of \$889,135 or 20.6 per cent. This decrease reflects the decrease in value of motor cars in use in the year 1945, since the item of privileges in the revenue table consists principally of the motor vehicle excise, which is based on the valuation of cars registered. Privileges in 1945 included motor vehicle excise, \$3,306,478; revenue from parking meters in Haverhill, \$15,544; fisheries and shell fish rights, \$9,189; lunch carts, roadside stands, and markets, \$2,712; easement, \$300; use of streets and sidewalks for various purposes, \$99,377.

Departmental revenues increased from \$31,513,690, in 1944 to \$34,959,345, an increase of \$3,445,655 or 10.9 per cent. The increase in charity reimbursements amounted to \$3,516,579, which was slightly offset by diminished revenues in other departmental accounts. The charity reimbursements consist in a very large part of amounts paid by the State and other cities and towns for dependent aid, aid to dependent children, and old age assistance.

Revenue from public service enterprises decreased from \$37,697,806 in 1944 to \$37,630,426 in 1945, a decrease of \$67,380. Municipal light plant revenues increased from \$9,862,693 in 1944 to \$10,212,673 in 1945, an increase of \$349,980 or 3.5 per cent. There was a decrease, however, in water department revenues of \$108,789 and a decrease in revenues of all other municipal enterprises of \$308,571.

The total amount received in 1945 from public service enterprises other than municipal light plants and water departments consisted of receipts from the following sources:

Street railway properties (Boston)	\$2,782,056.82
Street railway properties (Greenfield and Montague)	107,878.50
Sumner Traffic Tunnel (Boston)	1,455,235.00
Printing department (Boston)	525,965.66
Markets (Boston)	99,738.99
Academy of Music (Northampton)	76,857.98
Docks and wharves	31,872.89
Clam Chlorination Plant (Newburyport)	17,877.50
Ferries (Boston)	10,122.08
City Record (Boston)	9,854.47
Land and water board (Essex)	3,671.30
Public scales	2,839.30
Herring and alewife fisheries	1,185.55
Total	\$5,125,156.04

ANALYSIS OF CURRENT CHARGES.

Referring to the table showing current charges against revenue for the years 1944 and 1945, we find that total charges increased from \$333,484,343 in 1944 to \$345,809,586 in 1945, a total increase of \$12,325,243 or 3.7 per cent. The total expenses for maintenance and operation increased from \$290,514,287 to \$307,761,075, an increase of \$17,246,788, or 5.9 per cent. Interest and debt charges, including tax title redemptions paid to the State and transfers to sinking funds from revenue, decreased from a total of \$42,970,056 to \$38,048,511, a decrease of \$4,921,545, or 11.5 per cent.

There were increases in expenses under every heading, but the greatest increases in amounts were in protection of persons and property, \$1,296,218, or 3.3 per cent; health and sanitation, \$1,353,338, or 6.6 per cent; highways, \$4,575,921, or 21.3 per cent; charities, \$3,297,631, or 5.1 per cent; schools \$2,891,695, or 3.5 per cent; pensions, \$1,101,393, or 11.1 per cent. The fact that there were increases in expenses for every function of government may be attributed to the general increases in compensation granted because of the higher costs of living, as well as to the increased costs of materials purchased.

Unclassified departmental expenditures amounted to \$4,440.977, which may be summarized as follows:

Damage settlements	\$399,771
Printing municipal documents, etc.	244,536
Memorial Day and care of veterans' graves	169,571
Rent, etc., for military organizations	117,488
Maintenance of honor rolls	29,958
Blanket fire insurance, liability insurance, and workmen's compensation insurance not otherwise allocated	884,755
Boston Elevated street railway deficit assessments and expenses of Boston Metropolitan district	341,322
Ration board expenses, not otherwise provided	153,530
Airport maintenance	19,364
Memorial auditoriums, community houses, and miscellaneous buildings	627,372
Care and repairs of tax title property	306,196
Shellfish propagation and protection, and stocking fish and game	18,504
City and town clocks	11,866
Aid to agriculture paid counties	4,671
Miscellaneous	1,112,073
Total	\$4,440,977

The amount of insurance shown in this section does not cover the entire cost of fire insurance, liability, and workmen's compensation insurance, as many of the municipalities charge these forms of insurance to the particular division which is protected. The miscellaneous item in the unclassified expense is large, but it comprises such a variety of items that it is hardly possible to give an adequate detail.

Payments for the maintenance of public service enterprises, exclusive of debt and interest charges, increased from \$18,606,130 to \$19,364,335, an increase of \$758,205, or 4.1 per cent.

The total payments for maintenance of public service enterprises as shown in Table I for cities, towns over 5,000 population and towns under 5,000 population consisted of municipal light plants, \$7,724,414; water departments, \$10,380,420; and all other \$1,259,501. Charges for maintenance of the various public service enterprises other than electric light and water were as follows:

Street railway properties (Greenfield and Montague)	\$88,243.34
Sumner Traffic Tunnel (Boston)	288,379.65
Printing department (Boston)	461,404.78

For the convenience of persons using the report for a comparison over a period of years, we present on pages xii and xiii tables showing the revenue for current charges, the current charges against revenue, and the expenditures for outlays, for a period of ten years from 1936 to 1945, inclusive.

While the term "current charges against revenue" has been used uniformly in these reports for maintenance charges, it should be borne in mind that during the years since 1933, a portion of these maintenance charges has actually been paid from the proceeds of Municipal Relief loans which are classified as funded general debt.

During the year ending April 30, 1947, there were 325 audits made in cities, towns and districts, and assistance was given on request of local officials to financial and accounting officers in 17 other municipalities. One additional system of accounts was installed.

During the year ending April 30, 1948, there were 306 audits made in cities, towns and districts and one additional system installed. There are now 252 cities, towns and districts in which the uniform system of accounts has been installed.

Local officials who have received the assistance of this office in their accounting work and financial problems give frequent expressions of appreciation for the work of the department.

Section 40 of Chapter 44 of the General Laws has been amended to read as follows: "The director shall cause an audit to be made of the accounts of all cities and towns and of all fire, water, light and improvement districts of the commonwealth and may cause subsequent audits to be made of the accounts of each city and town annually, and of the accounts of each fire, water, light and improvement district as often as once in two years or annually at the request of the prudential committee or commissioners and for this purpose he, and his duly accredited agents, shall have access to all necessary papers, books and records. All accounts subject to audit by town auditors under section fifty-three of Chapter forty-one shall be subject to audit by the director, and the trustees of any property, the principal or income of which, in whole or in part, was bequeathed or given in trust for public uses for the benefit of the town or any part thereof, or for the benefit of the inhabitants of the town or any part thereof, shall give the director, or his duly accredited agents, access to their accounts, funds, securities and evidences of property for the purposes of the audit. Upon the completion of each audit, as aforesaid, a report thereunder shall be made to the mayor and city government in cities, to the selectmen in towns, and to the prudential committee and commissioners in a district, and a copy of the same shall be

furnished to the city, town or district clerk, who shall cause the same or a summary of its essential features to be published at the expense of the city, town or district. The director, in his discretion, may give preference to audits upon petitions under section thirty-five or thirty-six over audits under this section."

Chapter 372 of the Acts of 1946 as amended by Chapter 479 of the Acts of 1947 provides in section 8D as follows: "The audit of the accounts of cities and towns provided for by sections thirty-five, thirty-six and forty of chapter forty-four of the General Laws shall include an audit of the accounts of every housing authority relating to work performed under section six when the treasurer of such authority has received funds from the city or town in accordance with section eight."

PLAN OF THE REPORT.

The statistical presentations of this report, following the introductory matter, are arranged in three principal parts, devoted respectively to the finances of (I) the 39 cities; (II) the 92 towns having a population of 5,000 or over; and (III) the 220 towns having a population of less than 5,000. In all the tabulations, unless otherwise indicated, the cities and towns are arranged in order of population for convenience of comparison.

PART I. — CITIES.

This part is subdivided as follows:— (A) Summary of Financial Transactions; (B) Receipts from Revenue; (C) Payments for Maintenance and Interest; (D) Indebtedness; and (E) Cash Balances.

(A) *Summary of Financial Transactions.*

This division consists of a summary table (designated Table I) or general survey of all the financial transactions of the 39 cities of the Commonwealth (pp. 4–27). The transactions of the city of Boston are presented on a separate page, since they are so much larger than those of other cities as to be scarcely comparable. Those of other cities are arranged, for purposes of comparison, in groups of four municipalities to a page, in the order of population of the State census of 1945.

(B) *Receipts from Revenue.*

Table II (pp. 30, 31) shows receipts from *General* and Table III (pp. 32, 33) receipts from *Commercial* Revenue. The former consists of taxes, licenses and permits, fines and forfeits, grants and gifts, and all other general revenue; while the latter is composed of revenue from special assessments (whether for expenses or outlays), privileges, departmental earnings, public service enterprises, cemeteries, and interest.

Table IV (pp. 34–43) is an exhibit of classified Departmental Earnings (being the detail of Column D of Table III), from which may be seen the amount of revenue received by the several municipalities from their various departments. Receipts under the heading of Unclassified are not included.

Table V (p. 44) is a tabulation of interest receipts classified to show the amount of interest derived from money on deposit, from deferred taxes and special assessments, from public trust funds (sub-classified according to particular funds, so far as is practicable), from investment funds, and from miscellaneous sources.

Table VI (p. 45) presents a summary of revenue receipts, giving within the scope of a single table in a form convenient for comparison the receipts from all sources of revenue of the 39 cities.

(C) *Payments for Maintenance and Interest.*

The tables in this division, VII to IX, inclusive (pp. 48–70) exhibit gross payments, classified in detail on account of the maintenance cost exclusive of interest, of the various departments or kinds of municipal services.

Table X (p. 71) is a tabulation of interest payments classified to show the amount of interest paid on the various kinds of municipal debt, together with the interest on metropolitan assessments for sewer, park, and water purposes, on county hospital assessments, and miscellaneous debt not specified.

From this table we note that the total interest payment of the 39 cities for the year 1945 was \$7,312,159.47, of which \$2,471,803.36 or 33.80 per cent was for interest on general and cemetery debt; \$193,840.52 or 2.65 per cent was interest on revenue and other temporary loans, including tax title loans from the State; \$3,293,706.92 or 45.05 per cent was interest on public service enterprise debt; and the remaining \$1,352,808.67 or 18.50 per cent was for interest on metropolitan and county assessments and miscellaneous debt.

(D) *Indebtedness.*

Table XI (p. 74) shows the outstanding indebtedness classified by the character of the obligation. This table includes the various classifications of temporary debt, the tax title debt, as well as the gross funded or fixed debt.

Table XII (p. 75) gives the relation of the total net funded or fixed debt to valuation, the valuation figures as reported to the Tax Commissioner being used. The net funded or fixed debt is found by deducting from the total funded or fixed debt the

amount which has been set aside in sinking funds to pay the debt when due. When loans in anticipation of bond issues are reported, although they are of a temporary character, they are in reality *fixed debt*, since they have no assets as an offset, and are included in Table XII in the total of funded or fixed debt, and are reckoned in determining the net debt.

Table XIII (p. 76) shows the debt transactions for 1945 classified according to the character of the obligation; Table XIV (p. 00) shows separately the payments to the State sinking and loan funds; and Table XV (p. 78) shows the method of meeting debt requirements from taxation.

The table of debt transactions (p. 76) shows the amount of debt incurred during the fiscal year 1945 for the several purposes specified, and the amount of debt cancelled during the year, excepting payments to the State sinking and loan funds on account of metropolitan assessments for sewer, park, and water purposes, and payments to counties on account of debt incurred for hospital purposes. Included in the term "General Loans" are all loans issued for general purposes, whether specified as for school, fire, police, highway, or other purposes. A classification of these loans issued in the year 1945 will be found in the introduction to this report.

(E) *Cash Balances.*

Table XVI (p. 80) shows the amount of cash on hand held by the treasurer and departments at the beginning and close of the fiscal year 1945.

PART II. — TOWNS OVER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances.

The tables in Division A, *Summary of Financial Transactions* (pp. 84–133) are similar in form and detail to those given for the cities in Part I, the towns being arranged in groups of four, according to population, with the exception of Brookline, the largest town, which is presented separately as its transactions are scarcely comparable with those of any other town. The tables in the division devoted to *Indebtedness* (II, III, IV, V, and VI, on pp. 136–143, inclusive) are similar to those given for the cities. The statements of *Cash Balances* (pp. 146–147) for the towns are also self explanatory.

PART III. — TOWNS UNDER 5,000 POPULATION.

The subdivisions of this part are as follows: — (A) Summary of Financial Transactions; (B) Indebtedness; (C) Cash Balances. They are presented on the same plan as the towns of over 5,000 population, which are shown in Part II.

TABLE XII. — *Relation of Indebtedness to Valuation — 1945.*

NOTE. — The valuation given in this table is the assessors' valuation of real and personal property as of January 1, 1945, together with the supplemental assessment of December, 1945, and the valuation of motor vehicles for the year 1945.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table XI, which includes funded or fixed debt and also temporary debt. If the amount of tax title loans, loans in anticipation of revenue, and unpaid warrants or orders is deducted from the total debt shown in Table XI, the result will give the funded or fixed debt shown in Table XII.

TABLE XIII. — *Debt Transactions for 1945 Classified by Character of Obligation.*

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table XIV, p. 77), nor payments to counties on account of debt incurred for hospital purposes (see Table XV, p. 78). For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 4 to 27, under the section "Municipal Indebtedness."

Refunding loans for the current year were issued for the renewal of tax title loans.

INDEBTEDNESS

TABLE III. — *Relation of Indebtedness to Valuation — 1945.*

NOTE.—The valuation given in this table is the assessors' valuation of real and personal property, as of January 1, 1945, together with the supplemental assessment of December, 1945, and the valuation of motor vehicles for the year 1945.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of tax title loans, loans in anticipation of revenue, in anticipation of highway reimbursement, and unpaid warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

TABLE IV. — *Debt Transactions for 1945 Classified by Character of Obligation.*

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 142), nor payments to counties on account of debt incurred for hospital purposes (see Table VI, pp. 142 and 143). For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 84 to 133, under the section "Municipal Indebtedness."

TABLE III. — *Relation of Indebtedness to Valuation — 1945.*

NOTE. — The valuation given in this table is the assessors' valuation of real and personal property as of January 1, 1945, together with the supplemental assessment of December, 1945, and the valuation of motor vehicles for the year 1945.

The total debt shown in this table is the funded or fixed debt. This amount differs from the total debt shown in Table II, which includes funded or fixed debt and also temporary debt. If the amount of tax title loans, loans in anticipation of revenue, in anticipation of highway reimbursement, and unpaid warrants or orders is deducted from the total debt shown in Table II, the result will give the funded or fixed debt shown in Table III.

Ninety-one towns having no funded or fixed debt are omitted from this table.

TABLE IV. — *Debt Transactions for 1945 Classified by Character of Obligation.*

NOTE.—The amount of debt as shown in the following table does not include the sinking and loan fund payments to the State (see Table V, p. 282), nor payments to counties on account of debt incurred for hospital purposes (see Table VI, pp. 283, to 285). For this reason the total amount of cancelled debt as here shown differs from that shown in Table I, Division A, pages 152 to 263, under the section "Municipal Indebtedness."
